

JOSHUA SILVA COLON

UI/UX SPECIALIST | FRONTEND DEVELOPER | UX ENGINEER

Colorado Springs, CO | joshuasilvazero@gmail.com

PROFESSIONAL SUMMARY

UI/UX Specialist and Frontend Developer with hands-on experience designing, implementing, and improving production-facing interfaces for B2B portals, CMS-driven websites, and e-commerce experiences. Skilled in HTML, CSS, JavaScript, React, Figma, FocusPoint CMS, responsive design, debugging, and translating customer requirements into usable, polished interfaces. Experienced collaborating with developers and stakeholders through Jira and Slack and carrying user-centered UI changes from concept through production implementation. U.S. Army veteran and former Sergeant (E-5) with leadership and structured problem-solving experience.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, TypeScript, Tailwind CSS, Framer Motion

UI/UX: Figma, Responsive UI Design, UX Improvements, Component Styling, Design-to-Code, Cross-Browser Compatibility

CMS & Tools: FocusPoint CMS, Git, GitHub, VS Code, Jira, Slack, Vercel, HubSpot, WordLift

Backend / Data: Node.js, Express.js, MySQL, MongoDB, REST API Integration

PROFESSIONAL EXPERIENCE

FocusPoint — UI/UX Specialist | Frontend & CMS Implementation 2026 – Present

- Design and implement production UI/UX enhancements across B2B portals and CMS-driven client sites, including BusesForSale, Lovato B2B Portal, and Jackson Pottery.
- Translate customer requirements, mockups, and visual direction into responsive HTML/CSS interfaces, improving navigation, headers, footers, side menus, banners, cards, product/cart layouts, popups, and mobile experiences.
- Improve end-to-end commerce and account workflows by debugging checkout paths, purchase-order and card flows, order confirmations, invoice downloads, quotes, order history filtering, calendar/date behavior, and related usability issues.
- Diagnose and resolve frontend defects involving CSS specificity, responsive sizing, scrolling/overflow, Kendo Grid behavior, pagination, filters, form submissions, API errors, and CMS constraints.
- Deliver content and SEO-focused enhancements such as author profile pages, responsive content layouts, HubSpot integrations, and production-ready page updates while collaborating through Jira and Slack.

U.S. Army — Sergeant (E-5) / Wheeled Vehicle Mechanic (91B) 2021 – 2026

- Led and mentored soldiers, coordinated maintenance operations and training, prioritized competing requirements, and maintained accountability in deadline-driven environments.
- Diagnosed complex mechanical, hydraulic, and electrical systems, strengthening structured troubleshooting, root-cause analysis, documentation, and problem-solving skills.

SELECTED PROJECTS

Warriors Blood Coffee Company — React / Tailwind E-commerce

- Built a responsive React and Tailwind CSS storefront with product, mission, checkout, and navigation experiences, translating brand direction into reusable frontend components.

Interstellar Developer Portfolio — Next.js / TypeScript / Three.js

- Created an interactive developer portfolio using Next.js, TypeScript, and Three.js with responsive layouts and 3D visual experiences.

EDUCATION & CERTIFICATIONS

B.S. Biology, University of Central Bayamón — May 2021 | React JS Certificate | MySQL Certificate | JavaScript Certificate | HTML & CSS Certificate
